AFRICA AND THE DIASPORA. RETHINKING THE ROLE OF AFRICANS AND AFRODESCENTS FOR THE MOTHER CONTINENT

**BAYMAU22 HYBRID CONFERENCE
OCTOBER 5TH TO 9TH 2022**

As usual, this year's conference will be rich in cultural and academic events. In addition, the hybrid format of the conference will make participation flexible to allow more people to join us from all over the world.

It will be a boon to people who are interested in the African continent from a historical perspective and how that history has shaped the world.

One of Africa's visible footprints on the world is the many African diasporas scattered around the world. This conference will be an opportunity for us to discover how knowledge, arts, and technology from Africa have circulated around the globe and contributed to shaping the world as we know it today. From there, we will also look at the status and realities of the African Diasporas in the contemporary world in different regions of the globe.

Going beyond the aspects mentioned above, we will also question and (re)think the role of the African Diasporas and their responsibility towards Africa on the social, economic and political levels.
